

THE ALPHA ACADEMY

SOCIAL DEVELOPMENT

The Alpha Academy curriculum tackles key issues impacting young black men. Our sessions address parent relationships, bullying, and other social influences. Participants are challenged to develop strong communications skills that lead to healthier relationships with family and friends.

PERSONAL DEVELOPMENT

Participants are empowered through discussions on male responsibility, etiquette, proper attire, life readiness, goal-setting and literacy.

ACADEMIC DEVELOPMENT

Participants are empowered to succeed academically. Our sessions highlight strategies to improve the life trajectory of our students through education. Our goal is to thoughtfully prepare our participants for higher education and beyond

PARENT SUPPORT

The Parent Support group will provide seminars that are designed to promote parenting skills, and essential in helping close academic achievement gap for students of color. Our support program is a collective endeavor of parents, educators, and human service professionals.
